State School Trust Lands Recreational Use License

- The $10 fee of the past has been replaced by a $2 addition to the conservation license, which allows hunters, anglers and trappers access to all legally accessible state school trust lands. Trappers will still need to secure a "Special State Lands Recreational Use License" from DNRC at no additional charge.
- Other recreational activities such as hiking and bird watching still require the $10 fee. These activities cannot, by Federal statute, be covered by the conservation license.

Interstate Wildlife Violator Compact – Montana is a member of the Interstate Wildlife Violator Compact. Under the compact, member states recognize suspensions of hunting, fishing or trapping privileges. It is illegal for a violator whose privilege to hunt, fish or trap is suspended to obtain or attempt to obtain a license, tag or permit in a member state. For more information, call 406-444-2452.

Bobcat and Lynx – Nonresidents may not take bobcats. Lynx are listed as a federally threatened species and there is no open season. It is a violation of both state and federal law to knowingly chase lynx with dogs.

Method of Taking – As a big game animal, mountain lions may only be taken by hunting (firearms or archery).

It is unlawful for anyone to hunt or attempt to hunt any game animal or game bird:

- from any self propelled (that is, motorized) or drawn vehicle.Even if the vehicle is not moving, hunters must be off or out of the vehicle. Holders of the Permit to Hunt From a Vehicle are the exception to this;
- on, from, or across any public highway or the shoulder, berm, or barrow pit right-of-way of any public highway (the entire width between the boundary lines of every publicly maintained way when any part thereof is open to the use of the public for purposes of vehicular travel, per MCA 61-1-202) in the State of Montana; or

Two-way Communications – It is unlawful to use two-way communications to: 1) hunt big game animals as defined in MCA 87-2-101(8). "Hunt" means to "pursue, shoot, wound, kill, chase, lure, possess or capture"; or 2) avoid game checking stations, FWP enforcement personnel, or to facilitate unlawful activity. When hunting mountain lions or bobcats with dogs, this rule applies when hounds are placed on tracks in a district open to mountain lion or bobcat harvest. The rule shall not be interpreted to prohibit the possession or use of two-way radios for safety or other legitimate purposes, nor does it prohibit the use of radio tracking equipment to locate hounds when hunting mountain lions or bobcats.

Night Vision Equipment – It is illegal to use night vision equipment or electronically enhanced light gathering optics for locating or hunting game animals.

Airplane Spotting – Aircraft may not be used to locate big game animals for the purpose of: 1) hunting those animals within the same hunting day after a person has been airborne; or 2) providing information to another person for the purpose of hunting those animals within the same hunting day after being airborne. The same **hunting day** in this context is defined as between the earliest and latest legal hunting hours.

Hunting Hours – Authorized hunting hours for the taking of mountain lion begin one-half hour before sunrise and end one-half hour after sunset each day of the hunting season. See official sunrise-sunset tables in these regulations.

Waste of Game – Mountain lion is excluded from being considered as "suitable for food" under big game regulations. A person that harvests a mountain lion must possess the head and hide, with evidence of sex naturally attached. The remaining carcass may be taken in possession or be left in the field.

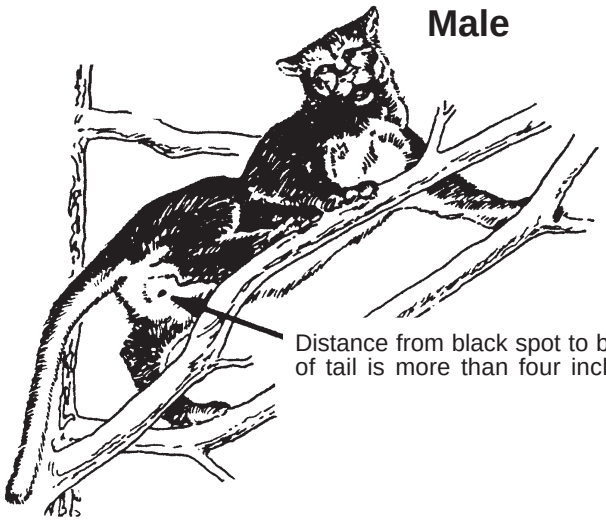
Guides will also be required to provide the license number of the outfitter on whose license they are guiding if required to do so by an FWP employee.

Procedures to Follow Upon Harvesting a Mountain Lion

- Immediately after killing a mountain lion, hunters must cut out the proper month and date of the kill from the appropriate license and attach it to the hide in a secure and visible manner.
  - To properly validate a license, locate the appropriate month and date the animal was killed and completely cut away (notch out) the month and the first and second digits of the date designations. Removing more than one month or one date designation invalidates the license.
- Evidence of sex must remain naturally intact on the hide.
- Hunters must personally report their mountain lion kill within 12 hours by calling the Mountain Lion Reporting Number at 1-877-FWP-WILD or 1-877-397-9453.
- Hunters must personally present the hide and skull within ten (10) days of harvest to an officer of FWP residing in the administrative region in which the license was filled, for the purpose of:
  - inspection and registration of kill.
  - verify evidence of sex.
  - removal of a tooth for aging purposes.
  - issuance and attachment of a hide tag. The hide tag must thereafter remain attached to the hide until tanned.
  - issuance of a trophy license, which costs $50.
- Hunters unable to comply with the tagging and trophying requirements due to special or unique circumstances, must contact the administrative region in which the mountain lion was killed and receive authority for tagging and trophying outside the region in which the animal was taken.
- It is unlawful for anyone to possess, ship, transport, sell or purchase any mountain lion, or part thereof, unless the animal has been tagged as prescribed.
- As a condition of hunting in Montana, a hunter harvesting a mountain lion must, if required by FWP, physically return to the kill site for inspection.

Sex Determination of Mountain Lion

Male adult and subadult lions have a conspicuous black spot, about one inch diameter, surrounding the opening to the penis sheath behind the hind legs and about four to five inches below the base of the tail.



Female adult and subadult lions may have black fur surrounding the vulva and located about three inches or less from the base of the tail.

Together, we can stop poachers.

It's time to say Enough is Enough!

Year-round and statewide, poachers are taking Montana's biggest and best game animals. Poaching is illegal. And it robs law-abiding hunters of hunting opportunities.

FWP game wardens have broken major poaching rings recently. TIP-MONT callers have increased the effectiveness of our warden's ability to protect Montana's resources. With your help, we can reduce poaching.
